

ENOS CHILESHE

Data Analyst | Power BI, SQL & Excel | AI-Assisted Development

Lusaka, Zambia · enoschileshe3@gmail.com

GitHub: github.com/enoschileshe3-dev • LinkedIn: linkedin.com/in/enos-chileshe

PROFILE

Economics graduate (University of Zambia, 2025) and Microsoft Certified Power BI Data Analyst (PL-300). I work mainly in Power BI, Excel and SQL, and I use Claude Code to build tools when a spreadsheet isn't enough. In my current role I built Doxa, a compliance search tool my team now uses every day, on my own initiative. I am most interested in economic and financial questions in Zambia, and in using data and AI to make slow, manual work faster and more accurate.

PROJECTS (full write-ups at github.com/enoschileshe3-dev)

Doxa — Compliance Search Tool | *Next.js, Vercel, built with Claude Code*

- Every title search order needs each party's name checked against US federal court records (PACER) and the US sanctions list (OFAC). For common names, a single order could take 5–6 hours by hand.
- Built a web app that runs both checks for a list of names and produces one print-ready PDF for the whole order. Heavy orders dropped to about 2–3½ hours, and simple ones to about 5 minutes.
- Built on my own initiative and now used daily by my team.

Zambia's Agricultural Productivity Gap | *Power BI, DAX*

- Showed that agriculture employs 58% of Zambia's workers but produces under 3% of GDP, and that output per farm worker is the lowest of seven neighbouring countries.

Inventory Optimisation & Financial Forecast | *Excel: Power Query, Solver, NPV/IRR*

- Optimised a \$10,000 reorder budget with Solver, and showed that investments that looked strong on revenue barely paid back on profit.

Email Campaign A/B Test | *Excel, hypothesis testing*

- Found personalised emails raised order value by 11.8% ($p = 0.035$); because the range of likely effects was wide, recommended a staged rollout rather than a full launch.

EXPERIENCE

Title Searcher — FSI Outsourcing

Jun 2026 – Present

Lusaka, Zambia

- Research property ownership records and legal history, and run bankruptcy and sanctions checks on every name on a title.
- Designed and deployed Doxa to automate the most time-consuming part of this work (see Projects).

Data Analyst in Training — FSI Outsourcing

Feb 2026 – Jun 2026

Lusaka, Zambia

- Completed a structured analyst programme covering Excel, SQL and Power BI, delivering dashboards, reports and presentations to set deadlines.
- Cleaned, transformed and validated data before analysis to keep reporting accurate.

Finance Department Intern — Innovate General Insurance

Dec 2024 – Feb 2025

Lusaka, Zambia

- Compiled sales and finance reports for motor insurance and bond products, and consolidated data from different business lines for internal and IFRS 17 reporting.

EDUCATION

Bachelor of Arts in Economics — University of Zambia (2022 – 2025)

Full Grade 12 Certificate

CERTIFICATIONS

- Microsoft Certified: Power BI Data Analyst Associate (PL-300)
- Microsoft SQL Server
- Excel Skills for Business — Macquarie University
- AI Fundamentals & Prompt Engineering — Anthropic Academy

TOOLS

Power BI (DAX, Power Query, data modelling) • Excel (Solver, scenario analysis, NPV/IRR) • SQL (querying, joins, aggregation, views) • Claude Code • Next.js
